PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

25X1D

Lozovaya Ammunition Depot Railroad Station Northeast is located 2 kilometers (km) northeast of Lozovaya (Figure 1).

The installation covers approximately 490 acres and contains 37 ammunition storage buildings, 3 earth-mounded probable drive-in buildings, 1 drive-through revetted building, and 14 support/storage buildings. A support area is located adjacent to the southwest edge of the storage area and contains 3 probable administration/barracks buildings and 15 support

storage buildings (Figures 2 and 3).

The installation was covered on TALENT mission of [REDACTED] and KEYHOLE missions between [REDACTED]. Changes between [REDACTED] included the addition [REDACTED] 4 small buildings, the revetting of 5 buildings, and the earth mounding of 2 buildings. The installation appears active on all photography.

25X1D

DESCRIPTION OF INSTALLATION

Railroad Service

The installation is served by 5 rail spurs and contains a 150- by 35-foot trackside dock.

Road Service

A secondary road connects the installation to Lozovaya.

Administrative and Troop Housing Area

Area D contains 3 administration/barracks and 15 support/storage buildings. This is a support area for the ammunition storage facility.

Ammunition Storage Area

Area F contains 37 revetted ammunition

storage buildings, 14 support storage buildings,

[REDACTED] 1 drive-through revetted building and 2 earth-mounded probable drive-in buildings located in the southern portion of the ammunition storage area. The ammunition storage area is doubly secured on 3 sides and singly secured on the side adjacent to the main road. Four small buildings were constructed, revetments were added around 5 buildings, and 2 drive-in buildings were earth mounded between [REDACTED]
